

Econo-Kool

FRESHWATER COOLING KITS

1. Econo-Kool is the most economical Heat Exchanger Kit on the market today.
2. Econo-Kool kits are specially designed for the "do it yourself" installer who supplies only the hose and hose clamps.
3. Order Part No. SK 4068 for small block engines to 360 C.I.D.
Order Part No. SK 4008 for big block engines to 500 C.I.D.
Purchasers should state make (Chev, Chrysler, Ford) and C.I.D. of engine to ensure correct size.

Exhaust manifolds remain on raw water system. V6-V8 engines 262-305-360 CID, both Sterndrive (I/O) and inboard. Especially designed to take advantage of the low capacity raw water pumps used on sterndrive engines. This Econo-Kool system can be installed onto engines with high mounted alternators and/or v-drives.

Extend the life of your engine while protecting it from corrosion with this EASY TO INSTALL, quality built, and uniquely designed heat exchanger cooling system.

1. Get improved fuel efficiency through more uniform engine operating temperatures
2. Adapts to use of cabin heater in cooler climates
3. Simplifies winterizing
4. Dual zinc anodes help control electrolysis
5. Kit includes detailed installation instructions
6. Benefit of inhibiting rust antifreeze protection
7. Workmanship and materials are fully guaranteed

Modern manufacturing techniques have evolved into a less expensive assembly process, while maintaining quality. These savings are passed on to you.
